Dear Mind Therapy Clinic,

I am writing to express my interest to fulfill the Jr. Software Engineer position currently available at your company. As an actual student in Software Engineering, I am thrilled to obtain real professional experience to back my university studies.

Although I may not have professional experience as a software engineer, I have gained lots of knowledge via hard work through numerous projects that I've built by myself. Only to become familiar with the technologies that are most used. This experience includes designing, coding, and debugging over 12 react projects, each with different tech stack, purpose, and problems, with these projects I've been able to improve my problem solving and critical thinking skills.

Furthermore, my motivation to join this company excels, I feel confident that I have the required drive and determination to thrive and quickly learn new technologies, contribute to the company's success, and become a valuable member of your team.

A copy of my resume is enclosed for your reference. I would welcome an opportunity to discuss my qualifications with you and learn more about Mind Therapy Clinic at your earliest convenience. I can be reached at (+52) 866 120 33 36 or via email at yahirmb7568@gmail.com. Thank you very much for your time and consideration.

Sincerely,

Yahir Moreno Barajas.
